

Maintenance Technician

As a **Weekend Maintenance Technician**, you will be responsible for safely installing, repairing, and maintaining the metal fabricating/assembly equipment used in the production of our innovative, high-quality refrigeration products. We have a lot to offer: 5% employer match on 6% employee contribution to 401(k), pay progression review 12 months after hire date, holiday pay, first-year paid vacation of up to 40 hours, and health insurance eligibility the first of the month, following hire date. In addition, earn a monthly production bonus of up to one (1) extra dollar for every hour worked in a month for reaching production targets!

Weekend Shift & Rate:

Friday through Sunday, 6:00 a.m. to 6:30 p.m. (12 hrs.) – Starting hourly rate from \$18.00 to \$22.00, corresponding with experience, and overtime pay for any hours worked over 36 in a pay period

What You'll Do:

- Inspect, operate, or test machinery or equipment to diagnose machine malfunctions.
- Dismantle machines, equipment, or devices to access and remove defective parts, using hoists, cranes, hand tools, or power tools.
- Perform routine maintenance, such as inspecting drives, motors, or belts, checking fluid levels, replacing filters, or doing other preventive maintenance actions.
- Diagnose mechanical problems and determine how to correct them, checking blueprints, repair manuals, or parts catalogs, as necessary.
- Repair machines, equipment, or structures, using tools such as hammers, hoists, saws, drills, wrenches, or equipment such as precision measuring instruments or electrical or electronic testing devices.
- Maintain or repair specialized equipment or machinery located in cafeterias, laundries, stores, offices, or factories.
- Assemble, install, or repair wiring, electrical or electronic components, pipe systems, plumbing, machinery, or equipment.

What You Bring:

- High school diploma or equivalent
- Mechanical knowledge – you bring a working knowledge of machine controls/Programmable Logic Controllers(PLCs), hydraulic and pneumatic systems, and industrial electrical supply systems/power distribution
- Metal fabrication – you have worked with raw metal materials, including welding them, to create a final product
- Problem Solving – you look for the root causes of problems so you can take actions to eliminate them
- Cooperation – you are pleasant with others on the job and display a positive attitude
- Dependability – you are reliable and responsible
- Physical Ability – you are able to lift up to 35 lbs. occasionally and bend, kneel or work overhead for short periods
- Computer Competency – you are familiar with Microsoft Windows and are comfortable with navigating through screens and reading/responding to email

Job Type: Full-time

Work Environment:

- High temperatures (in summer);
- Mandatory overtime to meet customer demand, as needed

Work Authorization: No calls or agencies please. Beverage-Air will only employ those who are legally authorized to work in the United States. This is not a position for which sponsorship will be provided. Individuals with temporary visas such as E, F-1, H-1, H-2, L, B, J, or TN or who need sponsorship for work authorization now or in the future, are not eligible for hire

Equal Opportunity Employer: Beverage-Air is an Equal Opportunity/Affirmative Action employer. All qualified applicants will receive consideration for employment without regard to sex, race, color, religion, national origin, age, marital status, political affiliation, sexual orientation, gender identity, genetic information, disability or protected veteran status. We are committed to providing a workplace free of any discrimination or harassment.
